Subject: Intervenor status

Dear Ms. Monroe,

Please forward the attached MA SEC Intervenor filing to our SEC members so that they understand that their counterparts in other NED impacted states (who have prior experience in having to make decisions regarding the potential siting or denial of siting of other high pressure gas transmission pipelines) are currently filing so they have standing and are privy to all information and findings regarding this docket. They acknowledge that they are separate from their state PUC and have different responsibilities.

NH residents reasonably expect that our SEC members always have the best interests of NH citizens at the forefront of their tasked responsibilities and will take all necessary steps to ensure that NH citizens are represented appropriately and adequately at relevant proceedings.

I expect to receive notification from FERC of the NH SEC filing for Intervenor status with the time deadline. If the SEC chooses not to file, they are abrogating their responsibilities.

Respectfully submitted,
Marilyn Learner
Hollis NH
