**To:** Monroe, Pamela  
**Subject:** Site Evaluation Committee Comment

Dear Ms. Monroe:

I urge the Committee to file a Motion to Intervene in the NED pipeline application to FERC. That status does not in itself indicate approval or disapproval of the project, but it does reserve the right of the Committee to comment officially during later stages of the process when new and unforeseen issues may arise. It would be shortsighted not to do so.

Thank you.
