Subj: NH SEC Docket #2016-03

Pamela Monroe, Secretary  
NH Site Evaluation Committee SEC

To Members of the Site Evaluation Committee

I live in Thornton and support the Petition asking for a declaratory ruling from the SEC barring Northern Pass Transmissions use of locally maintained roads without municipal permission.

It cannot be cost effective to disrupt a two lane highway through private property, destroying home landscaping, fences, trees, water supply, disrupting private driveways and clogging a two lane road when I93, a four lane highway bordered by state land would allow through traffic.

Elizabeth Terp
