Dear Ms. Monroe:

This letter is to notify you that the New Hampshire Department of Environmental Services (NHDES) Water Division staff have completed their determination as to whether or not the above referenced application contains sufficient information for the NHDES to initiate their technical review to consider the issuance of permits, conditions, certifications or licenses under the jurisdiction of NHDES. The following list contains the completeness determination for each NHDES program:

The NHDES Water Division's detailed review of the application along with the provision for technical comments or conclusions will occur in an expedited timeframe, as requested by the applicant to the SEC, which NHDES estimates to be accomplished by the first week of February and concurrently with the SEC review of the Motion request.
