**Re: SEC Docket No. 2021-02
Investigation of Complaints Regarding Antrim Wind Energy Facility
Completion of Turbine Lighting Upgrade**

Dear Mr. Evans, Ms. Hanson:

Antrim Wind Energy, LLC ("Antrim Wind") is pleased to advise you that Terma North America, Inc. ("Terma"), the manufacturer of the radar-operated Aircraft Detection Lighting System ("ADLS") for the Antrim Wind facility, completed its upgrade work on May 31, 2021 successfully and on schedule. Terma will be providing Antrim Wind with a summary of the work performed on the ADLS over the month of May 2021. Antrim Wind will in turn provide a copy of that report to you once received. Terma also intends to conduct an aircraft test of the system in the coming weeks, upon finalizing the test plan.

Antrim Wind respectfully requests that the Site Evaluation Committee and Antrim Selectboard also include a copy of all future correspondence in respect of this matter to the attention of Ethan Mollasalehi, Supervisor, U.S. Wind and Solar for TransAlta Corporation via email at ethan_mollasalehi@transalta.com.

For all media inquiries within New Hampshire, please contact Laura Kiernan, who is working on behalf of TransAlta in New Hampshire. Please contact her at kiernannh@gmail.com or by telephone at: 1 (603) 496-9111.

Yours truly,

TRANSALTA CORPORATION

(electronically submitted)

Ethan Mollasalehi
